Assignment Title: Design a Website to Promote a Sustainable Development Goal (SDG)

Instructions: Day 1

1. Research and Preparation:

- **Research Sources:**
  Keep a log of all the resources you use for your research (websites, articles, videos, etc.).
- Include:
  - The title of the resource.
  - Author or organization.
  - A brief note on how it contributes to your website.
- **Identify Impactful Websites:**
  Find 2-3 examples of websites related to your chosen SDG. Write down:
  - Why these websites are effective (e.g., clear messaging, visuals, navigation).
  - What design or content ideas you can learn from them.

2. Choose an SDG and Theme:

Select one Sustainable Development Goal (e.g., Climate Action, Quality Education, Zero Hunger) and brainstorm the message or problem you want to address.

3. Create a Website Blueprint:

- **Decide on Website Pages:**
  Write down the main pages you want to include (e.g., Home, About, Resources, Contact).
- Paper sketch.
- **Plan Content for Each Page:**
  Write a brief outline of the content for each section. Example:
  - **Home:** A brief introduction to the SDG and a call to action.
  - **About:** Details on the SDG, why it matters, and how people can help.
  - **Resources:** Links to articles, videos, and organizations.
  - **Contact:** A form or email for users to connect.

Day 2-4

4. Website Design Plan:

Create a visual layout for your website using one of these tools:

-
- Online wireframing tools (e.g., W3schools, repl.it).

Your layout should include:

- **Navigation Bar**: Include links to all your pages.
- **Visuals and Graphics**: Plan where images, icons, or infographics will go.
- **Colors and Fonts**: Choose colors and fonts that align with your SDG theme.

Day 5

5. Reflect and Improve:

Write down:

- Why your website design conveys the SDG message effectively.
- Any challenges you faced and how you solved them.

Submission Requirements:

- Your research log.
- A list of impactful websites and why they're effective.
- The website blueprint, including planned pages, content, and visuals.
- A short reflection (100–150 words).

Bonus: Create a basic HTML/CSS version of your webpage (optional).

Evaluation Criteria:

- **Creativity (20%)**: Original and engaging ideas.
- **Relevance (30%)**: Clear focus on the chosen SDG.
- **Organization (20%)**: Well-structured and easy-to-understand blueprint.
- **Research (20%)**: Thorough research and use of examples.
- **Reflection (10%)**: Thoughtful insights and improveme

Keep a log of research sources, important data, and ideas to include in the website.

- ○ Write down examples of impactful websites related to the chosen SDG and note why they're effective.
2. Create a Website Blueprint
   - ○ Write down what pages the website will include (e.g., Home, About, Resources).
   - ○ Plan the content for each section, focusing on conveying the SDG message effectively.
